PROJECTS

FemForce – Women's Gym Website Live Demo: [FemForce](#)

Developed a responsive women's gym website featuring animated 3D cards, particle effects, parallax scrolling, and an interactive contact form.

ElectroShop — Full-Stack E-Commerce Web Application Live Demo: [ElectroShop](#)

Developed a full-stack e-commerce platform for electronics with Google authentication, product listings, cart management, wishlist functionality, and order tracking.

Green Harvest — Front-End Brand Website Live Demo: [Green Harvest](#)

Designed and developed a front-end website for an organic gardening brand, reflecting its eco-friendly identity through consistent color schemes, typography, and visual storytelling.

Coffee Brand Website — Responsive UI Live Demo: [Coffee Brand](#)

Created a mobile-friendly coffee brand website with a clean layout, strong visual identity, and interactive elements to enhance user engagement.

ACADEMIC PROJECTS

Emotion-Based Music Player (Mini Project)

Designed and built a music player that adapts its playlist based on human emotions using real-time detection

Autism Detection — Deep Neural Network (Main Project)

Trained a DNN model on MRI datasets to classify autism as positive or negative cases without clinical consultation.

RESEARCH PUBLICATION

International Journal of Innovative Research in Computer and Communication Engineering (IJIRCCE)

Autism Spectrum Disorder Detection using Deep Neural Network

International Journal of Innovative Research in Computer and Communication Engineering (IJIRCCE), Volume 12, Issue 4, April 2024.

Developed a deep learning model to detect autism using MRI scans, demonstrating strong analytical and research skills.

CERTIFICATIONS & COURSES

- Figma & Canva — Simplilearn (Online Certification)
- Web Designing — Accord Info Matrix
- Python Programming — Accord Info Matrix
